

WORKMAN ADVENTURE COMPOUND

GENERAL RULES AND SAFETY GUIDE

Established 2009

*Protect the Property. Respect the People.
Preserve the Legacy.*

LIVE THE ADVENTURE. LEAVE THE LEGACY.

WORKMAN ADVENTURE COMPOUND

General Rules and Safety Guide

The basic rule is simple:

Use good judgment, follow directions, and do not create unnecessary problems for everyone else.

Contents

1	1. Property Access
2	2. General Conduct
3	3. Children and Youth Members
4	4. Recreational Vehicle Safety
5	5. Firearm Safety
6	6. Archery and Axe-Throwing Safety
7	7. Hunting Rules
8	8. Fire-Pit and Open-Flame Safety
9	9. Alcohol and Impairment
10	10. Buildings, Equipment, and Restricted Areas
11	11. Damage, Accidents, and Hazards
12	12. Emergencies
13	13. Cleanliness and Environmental Responsibility
14	14. Photographs, Social Media, and Privacy
15	15. Enforcement
16	16. Zombie Apocalypse Provisions
17	Final Rule

Welcome to the WAC

The Workman Adventure Compound exists so family and friends can gather, enjoy the outdoors, try new activities, and create memories together.

The WAC includes wooded land, trails, recreational vehicles, firearms, archery equipment, tools, machinery, hunting areas, fire pits, buildings, and other conditions that can create serious risks when used carelessly.

Every member and guest is responsible for protecting themselves, other people, the property, equipment, wildlife, and the traditions and reputation of the WAC.

Use good judgment, follow directions, and do not create unnecessary problems for everyone else.

1. Property Access

1.1 Private Property

The WAC is privately owned property. Membership, friendship, family connection, previous visits, or participation in WAC events does not create unrestricted access.

1.2 Permission to Visit

Members and guests should obtain permission before visiting unless they have been given standing access by the President or Vice President. Do not assume the property is available simply because no one appears to be there.

1.3 Guests

Members may not invite additional guests without approval. The member who invites a guest is responsible for explaining the rules, supervising the guest, ensuring the guest stays in approved areas, reporting any problems or damage, and making sure the guest leaves when the visit ends.

1.4 Requests to Leave

Anyone directed to leave the property must do so immediately. Refusal to leave may result in removal, loss of membership privileges, and enforcement of applicable trespass laws.

2. General Conduct

2.1 Respect the Property

Members and guests shall clean up after themselves, place trash in proper containers, avoid damaging trails, fields, buildings, and equipment, leave shared spaces reasonably clean, report hazards or damage, and respect private and restricted areas.

2.2 No Unauthorized Use

Do not use vehicles, tools, firearms, machinery, boats, equipment, tree stands, blinds, or buildings without permission. Seeing an item at the WAC does not mean it is available for communal use.

2.3 No Unauthorized Projects

Do not cut trees, clear trails, dig, burn brush, build structures, modify buildings, install equipment, move permanent items, or begin improvement projects without prior approval.

2.4 Personal Responsibility

Everyone is expected to participate within their own abilities. Do not pressure another person to perform an activity they believe is unsafe, beyond their skill level, or medically inappropriate.

3. Children and Youth Members

3.1 Parent and Guardian Responsibility

Parents and legal guardians are responsible for supervising their children at all times. The presence of other adults does not automatically transfer supervision.

3.2 Age-Appropriate Participation

Children may participate only in activities appropriate for their age, size, maturity, experience, physical ability, and level of supervision.

3.3 Restricted Activities

Children may not independently operate vehicles, use firearms, tend fires, use dangerous tools, or access restricted areas unless specifically authorized and properly supervised.

3.4 Fire-Pit Rule

Minors shall not start, maintain, or add fuel to a fire without direct adult supervision and permission.

4. ATV, UTV, Motorcycle, Go-Kart, and Recreational Vehicle Safety

4.1 Helmets

Approved helmets must be worn and properly secured whenever required by law, WAC rules, or the person supervising the activity. Youth riders shall wear helmets.

4.2 Footwear

Open-toed shoes are not permitted while operating or riding recreational vehicles. Riders should wear sturdy footwear suitable for the terrain.

4.3 Ride Within Your Ability

Do not ride faster or more aggressively than your experience allows. Horseplay, reckless driving, racing without approval, intentional collisions, and attempts to impress people through stupidity are prohibited.

4.4 Designated Areas

Remain on mowed trails, approved paths, assigned riding areas, and areas designated by WAC leadership. Do not create new trails or ride through planted fields, food plots, restricted hunting areas, wetlands, or private neighboring property.

4.5 Passengers

Do not carry passengers on vehicles that are not designed or approved for passengers.

4.6 Alcohol and Vehicles

No person may operate a recreational vehicle while impaired by alcohol, marijuana, medication, or another substance.

4.7 Equipment Inspection

Before operating a vehicle, check fuel, tires, brakes, steering, throttle, lights when applicable, visible damage, and required safety equipment. Report any problem before continuing to operate it.

5. Firearm Safety

5.1 Treat Every Firearm as Loaded

Every firearm shall be handled as though it is loaded.

5.2 Muzzle Direction

Never allow the muzzle to cover anything you are not willing to shoot.

5.3 Trigger Discipline

Keep your finger outside the trigger guard until the firearm is pointed at the intended target, the decision to fire has been made, and it is safe to shoot.

5.4 Target Identification

Always identify the target, what is in front of it, what is behind it, and what may enter the shooting area.

5.5 Safe Condition

Firearms shall remain unloaded and secured until they are ready for lawful and approved use. Safeties and gun locks should be used when appropriate, but mechanical devices do not replace safe handling.

5.6 Approved Shooting Areas

Firearms may be discharged only in approved locations, toward approved backstops, during approved activities, and when the area is confirmed safe.

5.7 No Impaired Handling

No person may handle or discharge a firearm while impaired.

5.8 Youth Shooters

Youth shooters must be directly supervised by a responsible and experienced adult.

5.9 Stop-Fire Authority

Any responsible adult may call “Cease fire.” When a cease fire is called, all shooters shall immediately stop, unload or secure their firearms as directed, and wait for further instructions.

CEASE FIRE MEANS STOP IMMEDIATELY.

6. Archery and Axe-Throwing Safety

6.1 Approved Areas

Bows, crossbows, throwing axes, knives, and similar equipment may be used only in approved areas.

6.2 Clear Range

No one may retrieve arrows, bolts, axes, or targets until all participants have stopped and the range is declared clear.

6.3 Equipment Condition

Do not use damaged bows, strings, arrows, bolts, targets, axes, or related equipment.

6.4 Supervision

Inexperienced participants and minors require supervision.

6.5 No Horseplay

Running, distracting participants, throwing unauthorized objects, or intentionally interfering with another person is prohibited.

7. Hunting Rules

7.1 Legal Compliance

All hunting must comply with applicable Michigan laws, seasons, licenses, permits, and reporting requirements.

7.2 Permission

No person may hunt at the WAC without specific permission.

7.3 Assigned Areas

Hunters shall use only their assigned areas. Do not enter another person’s hunting location or approach an occupied blind without communication and permission.

7.4 Blinds and Tree Stands

Private blinds and tree stands may not be used without permission. Do not alter, relocate, repair, or remove another person’s hunting equipment without approval.

7.5 Harvest Restrictions

The standing WAC rule is that a buck should have six or more antler points unless the landowner grants specific permission for another harvest. All legal and property-specific harvest restrictions shall be followed.

7.6 Hunter Communication

Hunters should communicate where they will be hunting, when they expect to return, what vehicle they are using, and whether anyone else is with them.

7.7 Safe Shooting

No shot shall be taken unless the hunter has positively identified the animal and has a safe shooting direction and backstop.

7.8 Tracking and Recovery

Hunters are responsible for making a reasonable effort to locate and recover wounded game. WAC leadership should be notified when assistance is needed.

8. Fire-Pit and Open-Flame Safety

8.1 Approved Fire Areas

Fires may be started only in approved fire pits or locations authorized by WAC leadership.

8.2 Fire Conditions

Do not start a fire during burn bans, dangerously dry conditions, high winds, or other unsafe circumstances.

8.3 Supervision

A fire shall never be left unattended.

8.4 Fuel

Do not burn pressurized containers, batteries, hazardous chemicals, treated materials that produce dangerous fumes, unauthorized trash, or explosive items.

8.5 Extinguishing Fires

Before leaving the area, confirm the fire is fully controlled or extinguished as directed. Water, tools, or another reasonable means of suppression should remain available.

9. Alcohol, Marijuana, Medication, and Impairment

9.1 Responsible Use

Adults who legally consume alcohol or other lawful substances must do so responsibly.

9.2 Prohibited Activities While Impaired

An impaired person may not operate vehicles, handle firearms, hunt, operate boats, use dangerous tools, operate machinery, supervise hazardous youth activities, or start or manage fires.

9.3 Intervention

WAC leadership or another responsible adult may remove a person from an activity when impairment creates a safety concern. The person's opinion that they are "fine" is not controlling.

10. Buildings, Equipment, and Restricted Areas

10.1 Private Areas

Buildings, rooms, sheds, machinery, storage locations, vehicles, blinds, stands, and equipment may be considered private unless permission is given.

10.2 Tools and Machinery

Do not operate tractors, chainsaws, power tools, generators, mowers, or other machinery without approval and adequate experience.

10.3 Keys and Access Codes

Keys, combinations, passwords, and access codes may not be copied or shared without permission.

10.4 Equipment Return

Approved equipment must be used properly, cleaned when appropriate, returned to its proper location, and reported if damaged or malfunctioning.

11. Damage, Accidents, and Hazards

11.1 Immediate Reporting

Report accidents, injuries, damage, missing equipment, unsafe conditions, and mechanical problems promptly.

11.2 Do Not Hide Damage

Accidents happen. Failing to report an accident usually creates a larger problem.

11.3 Repair and Replacement

A person responsible for avoidable damage may be required to assist with repairs, replace the damaged item, reimburse reasonable costs, or lose permission to use equipment.

11.4 Hazard Control

If a dangerous condition is discovered, stop the activity, warn others, secure the area when possible, and notify WAC leadership.

12. Emergencies

12.1 Call for Help

For serious injury, fire, crime, or another emergency, call 911.

12.2 Location Information

Members should know or be able to access the property address, emergency contact information, the location of first-aid supplies, fire extinguishers, emergency exits, and designated meeting locations.

12.3 Emergency Authority

During an emergency, any responsible adult may stop activities, direct people to safety, provide reasonable first aid, and contact emergency services.

12.4 Cooperation

Members and guests shall cooperate with emergency responders and WAC leadership.

13. Cleanliness and Environmental Responsibility

13.1 No Littering

Trash shall be placed in approved containers or removed from the property.

13.2 Wildlife and Habitat

Do not unnecessarily disturb wildlife, destroy habitat, damage food plots, or interfere with land-management activities.

13.3 Human Waste

Use approved bathroom facilities whenever available. When participating in wilderness activities, follow appropriate sanitation and waste-disposal practices.

13.4 Chemicals and Fuel

Fuel, oil, chemicals, batteries, and hazardous materials must be stored and disposed of properly. Spills must be reported immediately.

14. Photographs, Social Media, and Privacy

14.1 Respect for Others

Members should use reasonable judgment before publicly posting photographs or videos involving children, hunting, firearms, injuries, private areas, embarrassing situations, or individuals who have asked not to be posted.

14.2 Location and Security

Do not publicly share sensitive security information, access codes, equipment locations, firearm storage details, or other information that could compromise the property.

14.3 WAC History

Photographs and stories may be preserved in WAC historical materials, the Adventure App, or family resources when appropriate.

15. Enforcement

15.1 Authority

The President and Vice President retain final authority to interpret and enforce these rules. They may delegate authority to Board members, activity leaders, or responsible adults.

15.2 Corrective Action

A violation may result in verbal correction, removal from an activity, loss of equipment privileges, restriction from part of the property, temporary suspension, membership revocation, removal from the property, or referral to law enforcement when appropriate.

15.3 Serious Violations

Conduct involving violence, threats, theft, intentional property damage, reckless firearm use, dangerous impaired operation, or another serious safety risk may result in immediate removal.

16. Zombie Apocalypse Provisions

16.1 Infection

Anyone bitten by a zombie or displaying convincing evidence of undead infection shall immediately report the condition. Attempting to conceal a zombie bite is prohibited.

16.2 Disposal

Infected persons may be disposed of immediately in accordance with whatever emergency procedures remain practical at that time. Family membership, friendship, Board status, and previously earned badges shall not guarantee immunity.

16.3 Unauthorized Refuge

During a zombie apocalypse, do not travel to the WAC expecting food, ammunition, shelter, fuel, medical supplies, or permanent protection unless specifically invited.

16.4 Continuing Effect

These provisions remain in the official rules because removing them would demonstrate an unacceptable lack of preparedness.

These provisions remain because removing them would demonstrate an unacceptable lack of preparedness.

Final Rule

No document can anticipate every possible unsafe, destructive, inconsiderate, or foolish act.

Members and guests are therefore expected to follow all written and verbal directions, even when a particular instruction does not appear in this guide.

Using the WAC is a privilege.

Protect the property. Respect the people. Participate responsibly. Help preserve the WAC for the next generation.

WORKMAN ADVENTURE COMPOUND
